

True Potential Schroders Balanced

Investment Manager

Sub-investment manager

Schroders

Objective and Investment Policy

The Fund seeks to deliver long term (five years plus) growth and income from exposure, directly or indirectly, to a diversified portfolio which will mainly (at least 50%) be achieved through other investment funds. The Fund is actively managed, which means that the manager chooses the mix of the portfolio, and the Fund is not tracking any benchmark nor is the Fund constrained by the value, price or components of any benchmark or any other aspect.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund may also invest in: Closed-ended funds, exchange traded commodities, deposits, and money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer).

The Fund may hold up to 100% of its assets in other investment funds.

The Fund will have exposure to both United Kingdom and overseas markets.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying asset) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may only use derivatives and forward transactions for investment purposes on the giving of 60 days' notice to shareholders. The Fund does not currently use derivatives and forward transactions for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderate Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The ACD believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of asset in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 2 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 1.19%

There are no entry or exit charges.

Launch Date: 17 March 2015

Risk Profile: Balanced

The Balanced Investor may be somewhat concerned with short-term losses and may shift to a more stable option in the event of significant losses. The balance of investment risk and return are typically of equal importance to the Balanced Investor.

Why True Potential Schroders Balanced?

The True Potential Schroders Balanced Fund is sub-managed by Schroders Investment Management Limited and is managed in line with the Schroder MM Diversity Balanced Fund.

The True Potential Schroders Balanced Fund provides a diversified fund designed to deliver long term capital growth managed by the Schroders Fund Management team.
