Investment Manager

Sub-investment manager

Objective and Investment Policy

The Fund aims to provide growth by investing directly and indirectly in the UK and around the world, predominantly in other investment funds which have a global equity focus.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund may also invest in:

- Shares (units of ownership in a company),
- Bonds (issued by governments and other organisations) and derivatives.

The Fund may hold up to 100% of its assets in other investment funds.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderately Adventurous Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of assets in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 1.10%
