

True Potential Allianz Balanced

Investment Manager

Sub-investment manager

Objective and Investment Policy

The Fund aims to achieve long term growth.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund will invest at least 85% of its assets on a permanent basis in the Allianz RiskMaster Moderate Multi Asset Fund (Master Fund), which is a sub fund of Allianz International Investment Funds.

The Fund has been established as a UCITS feeder Fund. The Master Fund aims to provide investors with long term growth by maintaining a bias towards investments which are considered higher risk but may invest, to lesser degree, in investments considered lower to medium risk.

The Master Fund will invest directly or indirectly in:

- Shares (unit of ownership in a company)
- Other investment funds (including those with exposure to the property market)
- Derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets)
- Alternative asset classes (including commodities indices and hedge funds indices) - indirect exposure only

The Master Fund may also invest in: Bonds (issued by governments and other organisations), cash, money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer) and deposits.

The investment returns of the Fund are expected to be similar to the Master Fund. Differences in investment returns between the Fund and Master Fund may occur because the Fund may from time to time have more cash than the Master.

Derivatives and forward transactions may not be used for investment purposes or for Efficient Portfolio Management (EPM) by the Fund directly but may be invested in by the Master Fund.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderate Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of assets in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 3 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.78%

There are no entry or exit charges.

Launch Date: 19 May 2016

Risk Profile: Balanced

The Balanced Investor may be somewhat concerned with short-term losses and may shift to a more stable option in the event of significant losses. The balance of investment risk and return are typically of equal importance to the Balanced Investor.

Why True Potential Allianz Balanced?

The True Potential Allianz Balanced Fund is sub-managed by Allianz Global Investors and invests in the Allianz RiskMaster Moderate Multi-Asset Fund.

The True Potential Allianz Balanced Fund provides a diversified fund designed to provide the opportunity for capital growth and income through diversified exposure, directly or indirectly, to global equity and fixed income markets.
