

True Potential Close Brothers Cautious Income

Investment Manager

Sub-investment manager

Objective and Investment Policy

The investment objective of the Fund is to achieve income in excess of 3% per year of the net asset value of the Fund, with capital growth, over rolling 3-year periods (net of fees).

The Fund seeks to achieve its objective through the active management of a multi-asset strategy, by investing, directly or indirectly, at least 80% of its net asset value in equity securities (i.e. shares), equity-related securities (i.e. other investments whose value is related to equities), fixed income securities (i.e. bonds issued by corporates and governments) and fixed income-related securities (i.e. other investments whose value is related to debt).

The Fund will be managed such that 20%-60% of its assets will be exposed to equity and equity-related securities, with 30%-60% exposed to fixed income and fixed income-related securities, however, in normal market conditions it is expected that the Fund will have a largely balanced exposure to these asset classes.

While the Fund has the power generally to invest in the asset classes described above, it may invest up to 20% of its net asset value in high-yielding corporate bonds, being unrated bonds or those rated below investment grade (i.e. below BBB minus or equivalent) by a single external rating agency under normal market conditions. The Fund may also invest in bonds issued or guaranteed by governments in emerging markets.

The Fund may also invest up to 20% of its net asset value in money-market instruments (i.e. debt securities with short term maturities), deposits, cash and cash equivalents (including deposits, treasury bills, certificates of deposit, bankers acceptances and commercial paper).

Exposure to the above asset classes may be achieved directly or indirectly through investment in units or shares of other collective investment schemes such as UCITS schemes or eligible non-UCITS schemes (including collective investment schemes that are exchange-traded funds) and closed ended funds constituting transferable securities. The collective investment schemes invested in may be managed by the sub-investment manager or an associate of the sub-investment manager. By investing in these vehicles, the Fund may also have some limited exposure to alternative asset classes, such as property, private equity and commodities.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Moderately Cautious Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of assets in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.63%

There are no entry or exit charges.

Launch Date: 16 March 2015

Risk Profile: Cautious

The Cautious Investor may be sensitive to short-term losses. A Cautious Investor's potential aversion to losses could compel them to shift into a more stable investment if significant short-term losses occur. A Cautious Investor is usually willing to accept somewhat lower returns in order to lower their exposure to risk.

Important Information

In September 2024, the FCA updated its Packaged Retail Insurance and Investment Products (PRIIPS) guidance on how we disclose costs for closed-ended funds like investment trusts. This change is designed to give you a clearer picture of the actual costs that impact your investments. As a result, some of our fund OCFs (Ongoing Charges Figure) have significantly decreased, reflecting only the costs that directly affect the fund's assets.

From 1st June 2021, True Potential Administration LLP took over from Smith and Williamson Fund Administration Limited as the Authorised Fund Manager. True Potential Investments LLP will continue as the Investment Manager.

From the 1st October 2022 this fund changed name from 'True Potential Cautious 2 Income' to 'True Potential Close Brothers Cautious Income'.

From 4th December 2023, the Depository has changed from HSBC Bank PLC to Northern Trust Investor Services Limited.

A Fund Prospectus and Key Investor Information Document (KIID) are available from www.truepotential.co.uk/fund-administration/#fund-documents or by email to investmentmanagement@tplp.com.
