

True Potential SEI Defensive

Investment Manager

Sub-investment manager

Objective and Investment Policy

The Fund aims to protect against the risk of a significant loss of capital and to provide some growth and income growth by investing in other investment funds which have an equity and fixed income focus.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund may hold up to 100% of its assets in other investment funds.

The Fund may also invest in:

- Shares (unit of ownership in a company),
 - Bonds (issued by governments and other organisations) and derivatives.
- The Fund will have exposure to both United Kingdom and overseas markets.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital. The Fund may also use derivatives for investment purposes.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

The Benchmark for this fund is Morningstar UK Cautious Target Allocation, this is a Comparator Benchmark. The benchmark may be used as a guide to compare and assess the performance of the Fund. Our aim is to help you monitor how your investment is performing. The Manager believes this is an appropriate comparator benchmark, given the multi-asset nature and relative risk profile of the Fund. The Sub-Fund does not use the benchmark as a target, nor is the Fund constrained by it. The mix of assets in the Fund may vary from those of the benchmark (and its constituents). Accordingly, it should be used for reference purposes only.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 1 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.86%

There are no entry or exit charges.

Launch Date: 24 June 2015

Risk Profile: Defensive

The Defensive Investor may be very sensitive to short-term losses. A Defensive Investor's potential aversion to short-term losses could compel them to sell their investment and hold a zero risk investment instead if losses occur. A Defensive Investor would possibly accept a lower long term return in exchange for less frequent changes in portfolio value.

Why True Potential SEI Defensive?

The True Potential SEI Defensive Fund is sub-managed by SEI Investments Management Corporation and is managed in line with the SEI Conservative Fund.

The True Potential SEI Defensive Fund provides a diversified fund designed to generate some capital growth and income growth while seeking to protect against the risk of a significant loss of capital, through diversified exposure, directly or indirectly, to equity and fixed income markets.
