| Objectives and Investment Policy | Risk and Reward Profile | |
|---|---|--|
| The Fund seeks to deliver growth over a rolling 3 year period net of fees. | The Risk and Reward Indicator demonstrates where the Fund ranks in | |
| | terms of its potential risk and reward. The higher the rank the greater the | |
| Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years. | potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of | |
| plan to withdraw then money within 5 years. | the future risk profile of the Fund. The shaded area in the table below | |
| The Fund will provide exposure to a mixed portfolio using a multi-asset | shows the Fund's ranking on the Risk and Reward Indicator. | |
| strategy combining different asset classes such as shares, bonds and cash (as | | |
| further explained below). | Typically lower rewards Typically higher reward | |
| The Fund may also invest in shares; corporate bonds; government bonds; | Lower risk Higher ris | |
| money-market instruments (investments usually issued by banks or | ← → | |
| governments that are a short-term loan to the issuer by the buyer); collective | 1 2 3 4 5 6 7 | |
| investment schemes; derivatives and forward transactions (including securities | The Fund is in a medium category because the price of its investments have | |
| embedding derivatives); and deposits. | risen or fallen to some extent. The category shown is not guaranteed to | |
| The Fund will typically (i.e. within normal market conditions) be invested with | remain unchanged and may shift over time. Even the lowest category does | |
| exposure to: | not mean a risk-free investment. | |
| • 40% - 85% by value in listed shares (the exposure within normal market | The price of the Fund and any income from it can go down as well as up | |
| conditions is expected to be around 50%); and | and is not guaranteed. Investors may not get back the amount invested. | |
| • 15% - 60% by value in publicly traded corporate and/or government bonds | Past performance is not a guide to future performance. | |
| (a loan, usually to a company or government, that pays interest), money market | Investment Fund Risk - This Fund invests into other investment funds, they | |
| instruments, deposits and/or cash and near cash instruments (the exposure within normal market conditions is expected to be around 45%). | may invest in different assets, economic sectors, or countries (including | |
| | emerging markets) and therefore have different risk profiles not in line with | |
| The above exposures may be achieved directly or indirectly, including through | those of this Fund. | |
| collective investment schemes. This may include schemes managed by the | Performance Risk - Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on | |
| ACD, Investment Manager or sub-investment manager, or an affiliate of these | market conditions and the macro-economic environment, certain investment | |
| parties. | types and styles may perform better than others and investment objectives | |
| Corporate bonds may include high yield debt (which have a higher risk of | may become more difficult to achieve. | |
| default but potentially offer higher returns to compensate). Government bonds | Emerging Market Risk - Investments in emerging markets may involve greater risks due to political and economic instability, and underdeveloped | |
| may include emerging markets (bonds issued by less developed countries). | markets and systems. | |
| | Counterparty Risk - There may be cases where the organisation from which | |
| The Fund may also be invested up to 10% in commodities, metals, energy and agricultural products (the exposure within normal market conditions is | we buy a derivative, or an asset, fails to meet its obligations. The Fund's cash | |
| expected to be around 5%). Exposure to commodities may be achieved | deposits are also subject to counterparty risk. Derivative Risk - The Fund is entitled to use derivatives. Derivatives may not | |
| indirectly through exchange traded products. | achieve their intended purpose. Their prices may move up or down | |
| | significantly over relatively short periods of time which may result in losses | |
| Accumulation Shares: Any income the Fund generates will be reinvested. | greater than the amount paid. Operational Risk - The Fund faces non-market risk, relating to purchasing, | |
| Derivatives may be used for investment purposes to a limited extent for; a) | holding and servicing the Fund's assets. | |
| investment purposes, b) protecting against the effects of interest rate changes, | Credit Risk - Where the Fund invests in bonds, there is a risk the bond issue | |
| c) to enhance income returns, d) to protect against default risks, e) to limit | may fail to meet its repayments. Changes in interest rates, inflation and the | |
| currency exposure. | creditworthiness of the bond issuer may also affect the bond's market value. This risk is particularly relevant where the fund invests in bonds with a lower | |
| | credit rating. | |
| You can buy and sell shares on any working day in London, excluding UK public and bank holidays. | Exchange Rate Risk - The Fund may invest in securities not denominated in | |
| | GBP. The value of your investments may be affected by changes in currency | |
| There are no geographic restrictions on the investments. | exchange rates. Investment Trust Risk - Investment trusts and closed ended funds may | |
| | borrow to purchase additional investments. This can increase returns when | |
| For full investment objectives, policy and risk factor details please refer to the | stock markets rise but will magnify losses when markets fall. The value of an | |
| Prospectus. | investment trust or a closed-ended fund moves in line with stock market | |
| Please be aware there is no guarantee that this fund will meet its | demand and its share price may be less than or more than the net value of the investments it holds. | |
| investment objectives. | Liquidity Risk - Certain Market conditions could make sufficiently liquid | |
| | assets difficult to sell quickly at a fair price. This could result in an | |
| | unpredictable fall in the value, and overall liquidity of the Fund. | |
| | The above risks may cause losses in the Fund. | |
| | For full details on risk factors for this Fund, please refer to the Prospectus. | |
