

Objective and Investment Policy

The Fund aims to achieve growth over the medium term (3 years or longer).

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund will generally be invested in collective investment schemes. To reflect the balanced nature of the Fund, 40% to 80% of the Fund will be invested in assets which are considered higher risk. Higher risk assets include mainly domestic and international equities, there may also be a varied level of exposure to property, commodities and absolute return strategies. Exposure to these assets will be achieved indirectly through collective investment schemes, listed securities or directly through equities where applicable.

The Fund may also invest directly or indirectly in: Bonds (issued by governments and other organisations), cash, deposits and money market instruments (investments usually issued by banks or governments that are a short-term loan to the issuer by the buyer).

There may be times where the collective investment schemes which the Fund invests in will almost exclusively be index-tracking schemes managed by Legal & General.

There is no guarantee that capital will be preserved.

The Fund may use derivatives (a financial instrument whose price is dependent upon or derived from one or more underlying assets) for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

The Fund may invest more than 35% of the scheme property in government and public securities issued or guaranteed by a single issuer.

There are no geographical restrictions on the countries of investment.

You can buy and sell shares on any working day in London, excluding UK public and bank holidays.

This fund may invest principally in collectives. Further information can be found in the True Potential OEIC 3 Prospectus available at www.truepotential.co.uk/documents/

Ongoing Charges Figure (OCF)*: 0.32%

There are no entry or exit charges.

Launch Date: 23 November 2018

Risk Profile: Balanced

The Balanced Investor may be somewhat concerned with short-term losses and may shift to a more stable option in the event of significant losses. The balance of investment risk and return are typically of equal importance to the Balanced Investor.

Why True Potential Global Managed?

The True Potential Global Managed Fund is managed by True Potential Investments.

The True Potential Global Managed Fund provides a diversified fund designed to provide the opportunity for capital growth through diversified exposure, directly or indirectly, to global equity and fixed income markets.
